Another day, another decision ... then another ... then ... trouble ... then ...

BIG is a simple governance, probity and ethical decision making tool. Before you make your BIG decision let BIG help you exercise due diligence to check the impact of your decision on others based on:

- your own values
- your community's values and/or
- your organisation's values

Decisions are made to have an impact  
BIG decisions have a BIG impact

## HOW BIG WORKS

BIG is a 7 step decision making process:

1. Define the issue
2. State proposed action
3. Ethics check
4. Probity check
5. Decision
6. Reality check
7. Results check

## WHAT BIG DOES

- brings structure to decision making
- helps identify risks to manage before the decision is implemented
- prompts assessment of relevant generic ethical values
- encourages a probity and reality check
- documents how a decision was made

BIG deals with risk up front at the decision making phase instead of bolting on controls and 'fix-its' afterwards

## WHAT BIG CANNOT DO

- tell you what action to take
- give a single right or wrong answer
- take away responsibility for the action taken

## BIG IS FLEXIBLE

Integrity  
 Honesty  
 Fairness  
 Openness  
 Compassion  
 Other Value \*  
 Efficiency  
 Accountability  
 Objectivity  
 Democratic Leadership \*\*  
 Public Interest \*\*

Government Issue

Business Issue

Personal Issue

BIG has 10 generic ethical values to assess a decision against. Insert your own value if it is not listed. Assess one, some or all.

BIG permits a decision to be assessed from a government, business or personal perspective. Assess one, some or all.

*Total flexibility!*

BIG maintains privacy online. Your data is stored on your own computer, not on the CPN website. You decide whether to keep or release your decision making process.
